### **Nurse Advice Line**

Arizona Complete Health-Complete Care Plan has a Nurse Advice Line available 24 hours a day, seven days a week for members. The nurse will tell you if you should:

- Call your PCP
- Go to an urgent care center or
- Go to the emergency room.

The nurse can also tell you how to take care of yourself at home when you don't feel well and answer questions about your health.

To speak to a nurse, please call: **1-866-534-5963**, TTY/TDD: **711**.

For life threatening emergencies always call **911**. Prior Authorization is not needed for emergency services.

## Emergency Care/Urgent Care (Afterhours Care)

For life-threatening emergencies always call **911**. Prior Authorization is not needed for emergency services.

### Should I go to the Emergency Room or Urgent Care?

Urgent care is needed when you have an injury or illness that must be treated within 24 to 72 hours. It is not life-threatening. However, you cannot wait for a PCP office visit. Urgent care is *not* emergency care.

If you have a sudden health problem that is not an emergency, call your PCP. Your PCP will let you know what to do. If your PCP's office is closed, your call may go to an answering service. Listen carefully. You may be asked to leave a message so that the PCP can call you back.

If you are unable to reach your PCP, you can be seen at an urgent care center. You do not need an appointment to be seen at an urgent care center. You must use an urgent care center that is part of the Arizona Complete Health-Complete Care Plan network. For a list of urgent care centers near you visit [azcompletehealth.com/completecare](https://azcompletehealth.com/completecare).

### Urgent Care (Afterhours Care)

An urgent care center is a great place to get help because they usually have extended hours (afterhours), doctors to treat common problems, and can see you quickly (usually in less than an hour). Urgent care centers can help you with ear infections, sore throats, urinary tract infections, minor cuts and burns, sprains, and other common health issues. Urgent care can be used for problems your doctor would normally help with. Please call Member Services at **1-888-788-4408**, TTY/TDD: **711** and they can help you find an urgent care center near you.

## Telehealth Services

Telehealth services help provide care when you can't go to the doctor in person. Please check with your provider on your provider's telehealth options. Members may call Teladoc 24 hours a day, seven days a week and be connected with a healthcare provider in minutes. Teladoc can treat a number of different problems such as colds, flu, fevers, rash and skin conditions, sinuses and allergies, and respiratory infections. They also can prescribe medicines to treat those problems. You can call Teladoc at **1-800-835-2362**, TTY/TDD: **711**.

## Mobile Urgent Care

Arizona Complete Health-Complete Care Plan has partnered with DispatchHealth to deliver healthcare to you when you're sick or injured. This healthcare delivery service is in-network for Arizona Complete Health-Complete Care Plan members in some areas. The next time you have an urgent illness or injury that doesn't require a trip to the emergency room, you can stay put and give DispatchHealth a call. They use many of the same tools found in an ER. Each medical team has either a physician assistant or nurse practitioner and a medical technician, along with an ER physician that is available by phone. In fact, these are the same providers that you would see in your local emergency room.

DispatchHealth is available from 8 a.m. to 10 p.m., seven days a week, 365 days a year including holidays. To get care in Tucson call **1-520-479-2552** and in Phoenix call **1-602-661-9366**.

For emergencies, including but not limited to, chest pain, signs of a stroke, allergic reactions, or severe injuries, call **911**.

Examples of Emergency Room Symptoms	Examples of Urgent Care Symptoms
Extreme shortness of breath	Vomiting for more than 6 hours (if young child, call PCP)
Fainting	Diarrhea for more than 6 hours (if young child, call PCP)
Overdose/Poisoning	Sprained ankle
Chest Pains	Minor burns and rashes
Uncontrolled Bleeding	A minor allergic reaction
Seizures	Flu, sore throat with fever, earaches

## Emergency Room

Emergency rooms are for the treatment of emergency medical conditions, such as broken bones, severe pain, possible medicine overdose or poisoning, unconsciousness, uncontrolled bleeding, seizures, chest pains, or difficulty breathing.

For life-threatening emergencies always call **911**. Prior Authorization is not needed for emergency services

## How to get Behavioral Health Crisis Services

If you are afraid that you or someone you know might hurt themselves or someone else, call **911** right away. Prior Authorization is not needed for emergency services.

If you are having a behavioral health problem, a mental health crisis, and/or suicidal thoughts, you are not alone. Many people have similar struggles. There are resources available to help. During a crisis, you might feel like things will never change. Calling a behavioral health crisis line is a good way to begin getting help.

If you are having a behavioral health crisis, call the Crisis Line:

**1-844-534-4673** or **1-844-534-HOPE**, TTY/TDD: **711** (Statewide)

**1-844-423-8759** (Tohono O'Odham Nation)

**1-800-259-3449** (Gila River and Ak-Chin Indian Communities)

**1-480-850-9230** (Salt River Pima Maricopa Indian Community)

**1-855-728-8630** (Tribal Warm Line)

The Crisis Line offers immediate and confidential help 24 hours a day, seven days a week, 365 days a year to anyone having a behavioral health crisis. It doesn't matter what insurance you have or if you don't have insurance.

## Crisis Services Available to You

You are able to get crisis services, even if you are not Title XIX/XXI eligible (i.e., not eligible for AHCCCS/not on Medicaid) or if you are not determined to have a Serious Mental Illness. Crisis services available to you include:

- Toll-free crisis phone services, 24 hours per day, seven days a week;
- Mobile crisis services, available 24 hours per day, seven days a week;
- 23-hour crisis watch / stabilization services, including detox services and, as funding allows, up to 72 hours of additional crisis stabilization; and
- Substance abuse-related crisis services, including follow-up services.

## How to get Emergency Services While Out of the Service Area

You may need emergency services while you are away from home and out of the Arizona Complete Health-Complete Care Plan service area. This is called "out-of-area care." You have a right to use any hospital or other setting for emergency care. If you need out-of-area emergency care:

- Go to a hospital or crisis center and ask for help;
- Ask the hospital or crisis center to call **1-888-788-4408**, TTY/TDD: **711**;
- The hospital or crisis center will contact Arizona Complete Health-Complete Care Plan for approval of services; or
- For life-threatening emergencies, always call **911**.

**If you have an emergency, you can get emergency services at any hospital or other emergency room (in- or out-of-network). Emergency services do not need prior authorization.**

You can choose any hospital or other setting for emergency care. However, there are certain emergency settings such as urgent care, Nurse Advice Line, or Telehealth services within the Arizona Complete Health-Complete Care Plan network that may be easier for you to use.

## Family Voice & Decision Making

Our healthcare providers are expected to include responsible family members and other authorized individuals as decision-makers in the treatment-planning process. It is important that responsible family members and other authorized individuals attend as many discussions as possible about treatment planning for the member. That way, the decision-maker will be able to make the most informed decisions about care for the member.

If you feel your voice is not being heard please write to our Advocacy Team at **AzCHAdvocates@azcompletehealth.com**. You can also call our Member Services at **1-888-788-4408**, TTY/TDD: **711** and ask to speak with someone on the Advocacy Team.

## What is Covered?

What kind of healthcare can I get from Arizona Complete Health-Complete Care Plan (AzCH-CCP)?

### In order for you to get healthcare service through our Plan, the service must be both:

- A Covered Benefit based on your coverage with AHCCCS; and
- Medically Necessary.

A "Covered Benefit" means that you can get this service through AHCCCS and Arizona Complete Health-Complete Care Plan. "Medically Necessary" means a covered service provided by a physician or other licensed practitioner of the health arts within the scope of practice under State law to prevent disease, disability, or other adverse conditions or their progression, or to prolong life.

Arizona Complete Health-Complete Care Plan covers members from many groups. Please see below to see what services are covered for you.

# Members Who Have Been Designated as Seriously Mentally Ill (SMI) and are Enrolled in Medicaid

If you are a Medicaid-enrolled adult and enrolled in the Arizona Complete Health-Complete Care Plan that has been designated as Seriously Mentally Ill, you can get both your physical healthcare and behavioral healthcare through Arizona Complete Health-Complete Care Plan.

## Medicaid/Medicare Dual Eligible Members

If you are a “dual eligible” member (Medicare and Medicaid enrolled), it means that you may have additional benefits that may not be covered under AHCCCS. It is important that you let us know of your other coverage as soon as you are aware. When we know about your other insurance, it helps us coordinate the care you get with the other plan.

If you have Medicare coverage and you see a doctor that is not in our network, the charges may not be covered. If you choose to do that without our approval, we may not pay for those services because they were done by a doctor that is not on our plan. It is important that you work with your PCP and/or Health Home / behavioral health provider to be referred to the right doctors. (This requirement does not include emergency services. You do not need approval to get emergency services.) We will not cover copays or deductibles for services outside of the Arizona Complete Health-Complete Care Plan contracted Network without Prior Authorization.

## Adults with SMI not Enrolled in Medicaid

If you are enrolled with Arizona Complete Health-Complete Care Plan as a non-Medicaid Adult designated with Serious Mental Illness (SMI), you are eligible for a limited behavioral health benefit only (reference the table of behavioral health benefits for details).

## Consent to Treatment

You have the right to accept or refuse behavioral health services that are offered to you. If you want to get the behavioral health services offered, you or your legal guardian must sign a “Consent to Treatment” form giving your or your legal guardian’s permission for you to get behavioral health services. When you sign a “Consent to Treatment” form, you are also giving the Arizona Health Care Cost Containment System (AHCCCS) permission to access your records.

**To give you certain services, your provider needs to get your permission. Your provider may ask you to sign a form or to give verbal permission to get a specific service. You will be given information about the service so you can decide if you want that service or not. This is called informed consent. Informed consent means:**

- Telling the patient about a proposed treatment, surgical procedure, psychotropic drug, or diagnostic procedure;
- Telling the patient about other options;
- Telling the patient about any risks and possible complications; and
- Getting permission from the patient or the patient’s representative.

An example would be if your provider prescribes a medication. Your provider will tell you about the benefits and risks of taking the medication. They will also tell you about other options for treatment. Your provider will ask you to give written or verbal permission to take the medication. Let your provider know if you have questions or do not understand the information they gave you. You have the right to withdraw your consent at any time. Your provider will explain to you what will happen if you choose to withdraw your consent.

To find out more, call Member Services at **1-888-788-4408**, TTY/TDD: **711**.

## End-of-Life Care

End-of-life care is a member-centered approach with the goal of preserving member rights and dignity while getting any other medically necessary Medicaid-covered services. End-of-life care includes teaching members and families about illness and treatment choices to keep members healthy and to give them greater choice

in deciding their treatment when faced with a life-limiting illness, regardless of age or stage of illness. End-of-life care also allows members to get advanced care planning, palliative care, supportive care, and hospice services, and often includes making advance directives.

**Sometimes people are unable to make their own healthcare decisions. Before that happens, you can:**

- Fill out a written form to give someone the right to make healthcare decisions for you; and
- Give your doctors written instructions about how you want them to handle your healthcare if you become unable to make decisions yourself.

The legal documents you can use to give your directions are called “advance directives.” The documents are a way for you to tell your family, friends, and healthcare providers your wishes. It lets you put your healthcare wishes in writing in case you are seriously sick or injured and cannot tell others what you want.

**There are two types of advance directives in Arizona**

- **Living Will** – A document that tells your healthcare provider whether to keep giving you treatment if you are near death or are permanently unconscious without hope of recovery. Living Will: Arizona Revised Statutes §§ 36-3261 et seq.
- **Durable Power of Attorney for Healthcare** – A document in which you name someone to make healthcare decisions, including decisions about life support, if you can no longer speak for yourself. This person is your healthcare “agent” and may also carry out the wishes you described in your “Living Will.”
- **Durable Healthcare Power of Attorney:** Arizona Revised Statutes §§ 36-3221 et seq. Durable Mental Healthcare Power of Attorney: Arizona Revised Statutes §§ 36-3281 et seq

**If you want to create an advance directive:**

- Get the form from your doctor, your lawyer, a legal services agency, or a social worker.
- Fill out and sign the form. Remember, this is a legal document. You may want to have a lawyer help you fill out the form.
- Give copies to people who need to know about it, including your doctor and the person you name as your agent. You may also want to give copies to close friends or family members.
- Be sure to keep a copy at home.

If you are going to be hospitalized, take a copy of it to the hospital. The hospital will ask you whether you have signed an advance directive form and whether you have it with you. If you have not signed an advance directive form, the hospital will have forms available and may ask if you want to sign one.

The Health Plan cannot refuse care or otherwise discriminate against you based on whether or not you have an Advance Directive in place. You are also able to file a grievance if you feel the Health Plan or a provider has not followed advance directive requirements. The grievance can be filed by contacting Arizona Complete Health-Complete Care Plan Grievance and Appeals Department or directly with AHCCCS and the ADHS Division of Licensing Services.

If you would like more information about End-of-life Care and Advance Directives for you or a loved one, or if you would like to file a grievance, please call Member Services at **1-888-788-4408**, TTY/TDD: **711**.

Talk to your doctor about other important screening and preventive tests, such as colonoscopies, prostate exams, diabetes and cholesterol tests, a review of any needed vaccines (immunizations), lifestyle counseling, and any other necessary referrals.
- Keep your appointment for tests that your doctor has ordered for you.

## Well-Child Care/Early Periodic Screening, Diagnostic And Treatment (EPSDT)\*

Early Periodic Screening, Diagnostic and Treatment (EPSDT) is a comprehensive child health program of prevention and treatment, correction, and improvement (amelioration) of physical and behavioral health conditions for AHCCCS members under the age of 21.

The purpose of EPSDT is to ensure the availability and accessibility of healthcare resources, as well as to assist Medicaid recipients in effectively utilizing these resources.

EPSDT services provide comprehensive healthcare through primary prevention, early intervention, diagnosis, medically necessary treatment, and follow-up care of physical and behavioral health problems for AHCCCS members less than 21 years of age.

### **Amount, Duration and Scope**

The Medicaid Act defines EPSDT services to include screening services, vision services, replacement and repair of eyeglasses, dental services, hearing services and such other necessary healthcare, diagnostic services, treatment and other measures described in federal law subsection 42 U.S.C. 1396d(a) to correct or ameliorate defects and physical and mental illnesses and conditions discovered by the screening services, whether or not such services are covered under the AHCCCS state plan. Limitations and exclusions, other than the requirement for medical necessity and cost effectiveness do not apply to EPSDT services.

A well child visit is synonymous with an EPSDT visit and includes all screenings and services described in the AHCCCS EPSDT and dental periodicity schedules.

This means that EPSDT covered services include services that correct or ameliorate physical and behavioral health conditions, and illnesses discovered by the screening process when those services fall within one of the optional and mandatory categories of “medical assistance” as defined in the Medicaid Act. Services covered under EPSDT include all 29 categories of services in the federal law even when they are not listed as covered services in the AHCCCS state plan, AHCCCS statutes, rules, or policies as long as the services are medically necessary and cost effective.

EPSDT includes, but is not limited to, coverage of: inpatient and outpatient hospital services, laboratory and x-ray services, physician services, naturopathic services, nurse practitioner services, medications, dental services, therapy services, behavioral health services, medical equipment, medical appliances and medical supplies, orthotics, prosthetic devices, regular eye exams, vision screening, prescription eyeglasses, repairs or replacements of broken or lost eyeglasses, replacement of eyeglasses due to change in prescription, transportation, and family planning services. EPSDT also includes diagnostic, screening, preventive, and rehabilitative services. However, EPSDT services do not include services that are experimental, solely for cosmetic purposes, or that are not cost effective when compared to other interventions.

**The Well-child\* program includes the following procedures and tests to be performed as recommended by AHCCCS or at any time if medically indicated:**

- Medical history evaluation
- Height and weight measurements, including Body Mass Index (BMI) for those 24 months and older
- Head circumference from birth to 24 months
- Blood pressure measurement - the need for blood pressure measurement for children from birth to 24 months should be assessed by PCP

- Keep your child well;
- Protect your child from getting hurt;
- Spot health problems early; and

For 24-hour help with any breastfeeding concern or problem, call the **24-hour Breastfeeding Hotline at 1-800-833-4642**. We can also help you get a breast pump if you have decided to breast feed.

## Pregnancy Identification

As soon as you think you are pregnant, call your PCP to get a pregnancy test. Once you know that you are pregnant, it is important to choose a prenatal care provider. You may choose a doctor that specializes in pregnancy (also known as obstetrician), a certified nurse midwife, a licensed midwife (if you are over the age of 18 and are not high risk), a nurse practitioner, or a physician's assistant.

## Prenatal Care

**Prenatal care is the healthcare that happens during pregnancy. It has three parts:**

- 1** Early and continuous risk assessment;
- 2** Health education and promotion; and
- 3** Medical monitoring, intervention, and follow-up.

There is no charge for pregnancy related services. At your first visit, your provider will also do a risk assessment to identify your medical, behavioral, or social needs. Your questions and needs will show the doctor how a pregnancy will be set. At this time, your doctor will make referrals to community service offices and resources can be coordinated. Some examples of community service offices are Women, Infants and Children (WIC) and other state assistance programs like the Department of Economic Security (DES). DES provides financial aid to Arizona residents that qualify at application.

### **High-Risk Pregnancy**

High-risk pregnancy refers to a pregnancy in which the child-bearer, fetus, or newborn is, or is thought to be, at higher risk for death or serious disease before or after delivery. High-risk is determined by using medical tools from the Medical Insurance Company of Arizona (MICA) or the American College of Obstetricians and Gynecologists (ACOG). These forms are completed by your OB physician during your visit with them

Your pregnancy may be high-risk if you or your baby have a medical or other condition that could make you or your baby sick while you are pregnant or after delivery. Arizona Complete Health-Complete Care Plan has

care managers that can help you with your high-risk pregnancy at no cost to you. Our care managers can answer your questions and help you with your appointments or referrals. If you want to talk to one of our care managers, please call Member Services at **1-888-788-4408**, TTY/TDD: **711**.

### Labor And Delivery Care

When your baby is due (pregnancy usually is 40 weeks until delivery), your provider will deliver your baby at a hospital or birthing center. Hospitals are listed in the Provider Directory. If your pregnancy is not high risk, you may be able to deliver your baby at home with a licensed physician, practitioner, or licensed midwife.

- Practitioner refers to certified nurse practitioners in midwifery, physician's assistants, and other nurse practitioners.
- A licensed midwife is an individual licensed by the Arizona Department of Health Services to provide maternity care pursuant to Arizona Revised Statutes (A.R.S.) Title 36, Chapter 6, Article 7 and Arizona Administrative Code Title 9, Chapter 16. (This provider type does not include Certified Nurse Midwives licensed by the Board of Nursing as a nurse practitioner in midwifery or physician assistants licensed by the Arizona Medical Board.)
- A Certified Nurse Midwife (CNM) is certified by the American College of Nursing Midwives (ACNM) and licensed to practice in Arizona by the State Board of Nursing. CNMs practice independent management of care for pregnant individuals and newborns, providing antepartum, intrapartum, postpartum, gynecological, and newborn care, within a healthcare system that provides for medical consultation, collaborative management, or referral.

### Postpartum Care

Postpartum care is the healthcare that begins on the last day of pregnancy and continues up to 84 days after delivery. This is called a postpartum visit. This final part of maternity care is very important and should not be avoided even if your delivery went well. Your provider will examine you for medical and behavioral health needs after your baby was born.

Many individuals that have given birth can feel sad or depressed or have other changes in their mood after their baby is born. Tell your provider if you have these feelings. Depression can be treated. It is important to let someone know if you are feeling depressed. Family planning services are included if provided by a physician or a practitioner. Call Member Services at **1-888-788-4408**, TTY/TDD: **711** to schedule an appointment or if you need a ride to your postpartum care appointments.

We also want you to be able to get medical care if you lose your AHCCCS eligibility. You have the freedom of choice to seek family planning services and supplies from any network or out-of-network PCP or Gynecologist. No referral is needed from your PCP for family planning and OB/GYN services. Family planning services require no copayment and are offered at no cost to you.

### Medically Necessary Pregnancy Terminations

Pregnancy terminations are an AHCCCS covered service only in special situations. AHCCCS covers pregnancy termination if one of the following criteria is present:

- 1 The pregnant member suffers from a physical disorder, physical injury, or physical illness including a life-endangering physical condition caused by, or arising from, the pregnancy itself that would, as certified by a physician, place the member in danger of death, unless the pregnancy is terminated.
- 2 The pregnancy is a result of incest.
- 3 The pregnancy is a result of rape.
- 4 The pregnancy termination is medically necessary according to the medical judgment of a licensed physician, who attests that continuation of the pregnancy could reasonably be expected to pose a serious physical or behavioral health problem for the pregnant member by:
  - a. Creating a serious physical or behavioral health problem for the pregnant member,
  - b. Seriously impairing a bodily function of the pregnant member,
  - c. Causing dysfunction of a bodily organ or part of the pregnant member,
  - d. Exacerbating a health problem of the pregnant member, or
  - e. Preventing the pregnant member from obtaining treatment for a health problem.

## Dental Care

### Members Under 21 Years of Age

All dental health checkups, cleanings, and treatments are covered for members under the age of 21. A doctor referral is not needed to see a dentist. Two routine and preventive dental visits are covered per year for members under the age of 21. It is important to take your children to the dentist twice a year to keep their teeth healthy. A child's first dental visit is recommended by age 6 months, or by the time the first tooth appears. Children should visit their dentist for a checkup every six months.

Every member under age 21 needs to have a Dental Home. A Dental Home is an assigned dentist who will get you or your child the dental care that is needed. Call Member Services at **1-888-788-4408**, TTY/TDD: **711** to select a dentist or one will be assigned. If a dentist is assigned that you do not want, or if you see a dentist already in our network and you are happy with that dentist, please call Member Services at **1-888-788-4408**, TTY/TDD: **711** to ask to keep that dentist.

## Members 21 Years of Age and Older

What if I am over 21 years old and have a dental emergency? Limited dental services are covered to relieve severe pain and or infection. Adult members 21 years of age and older can get emergency dental services, limited to \$1,000 member per contract year. Emergency services over the \$1,000 benefit are the responsibility of the member.

Routine dental services are not covered for members 21 years of age or older. AHCCCS covers medical and surgical services related to dental (oral) care only if such services may be performed under State law by either a physician or by a dentist and the services would be considered physician services if done by a physician. Covered dental services for members 21 years of age and older must be related to the treatment of a medical condition such as loss of tooth/teeth due to trauma, cyst or tumor, or fracture of the jaw. Covered dental services include examining the mouth, X-rays, care of fractures of the jaw or mouth, and giving anesthesia, pain medication, and/or antibiotics.

What else is covered? Certain pre-transplant services for treating oral infections and oral disease (such as dental cleanings, filings, simple restorations, extractions). Dental cleanings are covered for members who are in an inpatient hospital setting and are placed on a ventilator or are unable to perform oral hygiene. These services are not part of the \$1,000 adult emergency dental limit.

## Pharmacy Services

The Arizona Complete Health-Complete Care Plan Formulary, or Preferred Drug List (PDL), is a guide to available brand and generic drugs that are approved by the Food and Drug Administration (FDA) and covered through your prescription drug benefit. The PDL is available on the Arizona Complete Health-Complete Care Plan website at [https://pharmacy.envolvehealth.com/content/dam/centene/envolve-pharmacy-solutions/pdfs/PDL/FORMULARY-ArizonaCompleteHealth\\_Integrated.pdf](https://pharmacy.envolvehealth.com/content/dam/centene/envolve-pharmacy-solutions/pdfs/PDL/FORMULARY-ArizonaCompleteHealth_Integrated.pdf). The PDL includes drugs available without prior authorization. Some medications require prior authorization or have limitations on age, dosage and maximum quantities. For some drugs, you must try another drug first – this is called step therapy.

Arizona Complete Health-Complete Care Plan will cover the drugs listed on our Preferred Drug List as long as they are medically necessary and appropriate. The Arizona Complete Health-Complete Care Plan PDL includes all medications covered on the related AHCCCS Preferred Drug List and include additional products that are safe and effective. The PDL is not meant to be a complete list of the drugs covered under your prescription benefit. Not all dosage forms or strengths of a drug may be covered.

The PDL is continually evaluated by the Arizona Complete Health-Complete Care Plan Pharmacy and Therapeutics (P&T) Committee to promote the appropriate and cost-effective use of medications. The Committee is made up of the Arizona Complete Health-Complete Care Plan Medical Director, Arizona Complete Health-Complete Care Plan Pharmacy Director, and several Arizona Complete Health-Complete Care Plan primary care physicians, pharmacists, and specialists. Annual updates and major changes in the PDL are communicated to providers and members by direct mail (e.g. fax, email, mail), as needed.

### **Generic Substitution**

Generic drugs have the same active ingredients as their brand name counterparts and should be considered the first line of treatment. The FDA requires generics to be safe and work the same as brand name drugs. If there is no generic available, there may be more than one brand name drug to treat a condition. Preferred brand name drugs are listed to help identify brand drugs that are clinically appropriate, safe, and cost-effective treatment options, if a generic medication on the formulary is not right for your condition.

### **Step Therapy**

Some medications listed on the Arizona Complete Health-Complete Care Plan PDL may require specific medications to be used before you can take the step therapy medication. If Arizona Complete Health-Complete Care Plan has a record that the required medication was tried first, then the step therapy medications are automatically covered. If Arizona Complete Health-Complete Care Plan does not have a record that the required medication was tried, you or your doctor may be required to provide additional information. If Arizona Complete Health-Complete Care Plan does not grant Prior Authorization (PA) we will notify you and your physician/clinician and provide information regarding the appeal process.

### **What is Prior Authorization?**

Some drugs must be approved by Arizona Complete Health-Complete Care Plan before you get them. This is called a Prior Authorization (PA). Ask your doctor if your prescription requires this. If it does, ask if there is another medicine that can be used that does not require a PA. Arizona Complete Health-Complete Care Plan doctors are notified of:

- The drugs included in the Preferred Drug List (PDL).
- How to request a prior authorization.
- Special procedures set up for urgent requests.

Your doctor can decide if it is necessary to have a non-preferred drug. If so, they must give Arizona Complete Health-Complete Care Plan a request for a PA.

Our pharmacy program includes many medications. We work with providers and pharmacists to make sure we cover drugs that can treat many different conditions and diseases. When ordered by a provider, we cover prescription medications and certain over-the-counter medications.

Some medications need prior authorization or other limitations. For some drugs, you must try another drug first. This is called step therapy. Please refer to the Arizona Complete Health-Complete Care Plan Preferred Drug List or PDL for more detail. Arizona Complete Health-Complete Care Plan will cover the drugs listed on our Preferred Drug List as long as they are medically necessary and appropriate. The Arizona Complete Health-Complete Care Plan PDL includes all medications covered on the related AHCCCS Preferred Drug List and include additional medications that are safe and effective.

The Arizona Complete Health-Complete Care Plan PDL can be found at [azcompletehealth.com/completecure](https://azcompletehealth.com/completecure).

### What if a Drug is not on the PDL/Formulary?

The PDL is not a complete list of drugs covered by Arizona Complete Health-Complete Care Plan. If the medicine your doctor feels you need is not on our list of covered drugs and you can't take any other medication except the one prescribed, your doctor may ask for Prior Authorization.

Arizona Complete Health-Complete Care Plan will approve your request if the drugs on our formulary would not be as effective in treating your condition and/or would cause you to have serious side effects.

### What if My Request is Denied?

- When Arizona Complete Health-Complete Care Plan denies a request for authorization, a *Notice of Adverse Benefit Determination or Notice of Decision (NOD)* is mailed to the member, and an explanation letter is mailed to your provider. The member's Notice of Adverse Benefit Determination will advise the member on how to file an appeal.
- If Arizona Complete Health-Complete Care Plan is reducing, suspending, or terminating an existing service, there are additional rights and rules that apply, other than just being able to file an appeal.

### How to Fill a Prescription

All prescriptions should be filled at an in-network pharmacy. You can use our Provider Directory to find a pharmacy near you. You can also call Member Services at **1-888-788-4408**, TTY/TDD: **711** to help you find a pharmacy. At the pharmacy, you will need to provide the pharmacist with your prescription and your member ID card.

If you take medicine for an ongoing health condition, you can have your medications mailed to you. Arizona Complete Health-Complete Care Plan works with a company called CVS Caremark to give you this service, which you can get at no cost to you. If you choose this option, your medicine comes right to your door. You can schedule your refills and reach pharmacists if you have questions. If you need medication home delivery services, please visit [www.caremark.com](https://www.caremark.com) for information on receiving your medications at your home, workplace, or doctor's office.

Some specialty drugs are only covered when supplied by our specialty pharmacy provider. Most of these drugs need prior authorization.

If you have other insurance besides Medicare Part D, we will only pay the copays (if applicable) if the drug is also on our list of covered drugs.

**For pharmacy issues or help after hours, on weekends, or holidays (including if you are turned away from the pharmacy when you try to get your prescription), please call Member Services at 1-888-788-4408, TTY/TDD: 711 24 hours a day, seven days a week.**

### What You Need to Know About Your New Prescription

Your doctor or dentist may give you a prescription for medication. Be sure and let your doctor know about any medications you get from other doctors or medications you buy on your own including non-prescription or herbal products.

When you pick up your prescription, the pharmacist will talk to you about your new prescription. Ask your pharmacist about how to take your medication and about any side effects that could happen. The pharmacy will also give you printed drug information when you fill your prescription. It will explain what you should and should not do and possible side effects.

### Refills

The label on your medication bottle tells you how many refills your doctor has ordered for you. If your doctor has ordered refills, you may only get up to one 30-day fill at a time. Call your pharmacy for a refill. They will tell you when you can pick it up.

If your doctor has not ordered refills, you or the pharmacy must call your doctor before your medication runs out. Talk to your doctor or pharmacy about getting a refill. The doctor may want to see you before giving you a refill.

### What Should I do if the Pharmacy Cannot Fill My Prescription?

Call Member Services at **1-888-788-4408**, TTY/TDD: **711** and we can help find out why your prescription cannot be filled. Sometimes a primary insurance may be entered wrong or it may be too soon to refill. Other times the medication is not on our list of covered drugs. If the pharmacy turns you away or will not fill your prescription, ask if you and the pharmacist can call Member Services together to find out what is happening. We will work with you and the pharmacy to find the best options for you.

### Exclusive Pharmacies

Arizona Complete Health-Complete Care Plan wants to keep members safe. Arizona Complete Health-Complete Care Plan may assign members to a Pharmacy Home or exclusive pharmacy. Exclusive pharmacies are chosen by the member or assigned by Arizona Complete Health-Complete Care Plan to provide all medically necessary medications. Members may be assigned exclusive pharmacies if:

**You used the following in a 3 month time period:**

More than 4 prescribers;

**AND**

More than 4 different abuse potential drugs;

**AND**

More than 4 pharmacies;

**OR**

You got 12 or more controlled substance medications in the past three months;

**OR**

Your Primary Care Provider (PCP) may be able to help you if you have mild depression, “postpartum” depression, anxiety, and attention deficit hyperactivity disorder (ADHD). Your PCP may give you medicine, watch how the medicine is working, and order different tests for your illness. **You do not need a referral from your PCP for behavioral health services.**

As an AHCCCS member, you are also entitled to a wide range of mental health / behavioral health benefits, including medications. Drugs ordered by your provider are part of your benefit.

### Receiving Behavioral Health Services if You are Designated as Seriously Mentally Ill

**Title XXI** (May also be called AHCCCS) is insurance for children under the age of 19 who do not have insurance and are not eligible for Title XIX benefits. It pays for medical, dental, and behavioral health services.

## Arizona's Vision for the Delivery of Behavioral Health Services

All behavioral health services are delivered according to the following system principles. AHCCCS supports a behavioral health delivery system that includes:

- Easy access to care
- Behavioral health recipient and family member involvement
- Collaboration with the Greater Community
- Effective Innovation
- Expectation for Improvement, and
- Cultural Competency.

## The Twelve Principles for the Delivery of Services to Children:

- 1 Collaboration with the child and family:**
  - a. Respect for and active collaboration with the child and parents is the cornerstone to achieving positive behavioral health outcomes, and
  - b. Parents and children are treated as partners in the assessment process, and the planning, delivery, and evaluation of behavioral health services, and their preferences are taken seriously.
- 2 Functional outcomes:**
  - a. Behavioral health services are designed and implemented to aid children to achieve success in school, live with their families, avoid delinquency, and become stable and productive adults, and
  - b. Implementation of the behavioral health services plan stabilizes the child's condition and minimizes safety risks.
- 3 Collaboration with others:**
  - a. When children have multi-agency, multi-system involvement, a joint assessment is developed and a jointly established behavioral health services plan is collaboratively implemented,
  - b. Client-centered teams plan and deliver services, and
  - c. Each child's team includes the child and parents and any foster parents, any individual important in the child's life who is invited to participate by the child or parents. The team also includes all other persons needed to develop an effective plan, including, as appropriate, the child's teacher, the child's Department of Child Safety (DCS) and/or Division of Developmental Disabilities (DDD) caseworker, and the child's probation officer.
  - d. The team:
    - i. Develops a common assessment of the child's and family's strengths and needs,
    - ii. Develops an individualized service plan,
    - iii. Monitors implementation of the plan, and
    - iv. Makes adjustments in the plan if it is not succeeding.
- 4 Accessible services:**
  - a. Children have access to a comprehensive array of behavioral health services, sufficient to ensure that they receive the treatment they need,
  - b. Case management is provided as needed,
  - c. Behavioral health service plans identify transportation the parents and child need to access behavioral health services, and how transportation assistance will be provided, and
  - d. Behavioral health services are adapted or created when they are needed but not available.
- 5 Best practices:**
  - a. Behavioral health services are provided by competent individuals who are trained and supervised,

- b. Behavioral health services are delivered in accordance with guidelines that incorporate evidence-based “best practices.”
- c. Behavioral health service plans identify and appropriately address behavioral symptoms that are related to: learning disorders, substance use problems, specialized behavioral health needs to children who are developmentally disabled, history of trauma (e.g. abuse or neglect) or traumatic events (e.g. death of a family member or natural disaster), maladaptive sexual behavior, abusive conduct and risky behavior. Service plans shall also address the need for stability and promotion permanency in class members’ lives, especially class members in foster care, and
- d. Behavioral health services are continuously evaluated and modified if ineffective in achieving desired outcomes.

### **6** Most appropriate setting:

- a. Children are provided behavioral health services in their home and community to the extent possible, and
- b. Behavioral health services are provided in the most integrated setting appropriate to the child’s needs. When provided in a residential setting, the setting is the most integrated and most home-like setting that is appropriate to the child’s needs.

### **7** Timeliness:

- a. Children identified as needing behavioral health services are assessed and served promptly.

### **8** Services tailored to the child and family:

- a. The unique strengths and needs of children and their families dictate the type, mix, and intensity of behavioral health services provided, and
- b. Parents and children are encouraged and assisted to articulate their own strengths and needs, the goals they are seeking, and what services they think are required to meet these goals.

### **9** Stability:

- a. Behavioral health service plans strive to minimize multiple placements,
- b. Service plans identify whether a class member is at risk of experiencing a placement disruption and, if so, identify the steps to be taken to minimize or eliminate the risk,
- c. Behavioral health service plans anticipate crises that might develop and include specific strategies and services that will be employed if a crisis develops,
- d. In responding to crises, the behavioral health system uses all appropriate behavioral health services to help the child remain at home, minimize placement disruptions, and avoid the inappropriate use of the police and the criminal justice system, and
- e. Behavioral health service plans anticipate and appropriately plan for transitions in children’s lives, including transitions to new schools and new placements, and transitions to adult services.

## **10** Respect for the child and family's unique cultural heritage:

- a. Behavioral health services are provided in a manner that respects the cultural tradition and heritage of the child and family, and
- b. Services are provided in Spanish to children and parents whose primary language is Spanish.

## **11** Independence:

- a. Behavioral health services include support and training for parents in meeting their child's behavioral health needs, and support and training for children in self-management, and
- b. Behavioral health service plans identify parents' and children's need for training and support to participate as partners in the assessment process, and in the planning, delivery, and evaluation of services, and provide that such training and support, including transportation assistance, advance discussions, and help with understanding written materials, will be made available.

## **12** Connection to natural supports:

- a. The behavioral health system identifies and appropriately utilizes natural supports available from the child and parents' own network of associates, including friends and neighbors, and from community organizations, including service and religious organizations.

## **Nine Guiding Principles For Recovery-Oriented Adult Behavioral Health Services And Systems**

- 1** Respect - Respect is the cornerstone. Meet the person where they are without judgment, with great patience and compassion.
- 2** Persons in recovery choose services and are included in program decisions and program development efforts - A person in recovery has choice and a voice. Their self-determination in driving services, program decisions and program development is made possible, in part, by the ongoing dynamics of education, discussion, and evaluation, thus creating the "informed consumer" and the broadest possible palette from which choice is made. Persons in recovery should be involved at every level of the system, from administration to service delivery.
- 3** Focus on individual as a whole person, while including and/or developing natural supports - A person in recovery is held as nothing less than a whole being: capable, competent, and respected for their opinions and choices. As such, focus is given to empowering the greatest possible autonomy and the most natural and well-rounded lifestyle. This includes access to and involvement in the natural supports and social systems customary to an individual's social community.
- 4** Empower individuals taking steps towards independence and allowing risk taking without fear of failure - A person in recovery finds independence through exploration, experimentation, evaluation, contemplation and action. An atmosphere is maintained whereby steps toward independence are encouraged and reinforced in a setting where both security and risk are valued as ingredients promoting growth.

- 5** Integration, collaboration, and participation with the community of one's choice - A person in recovery is a valued, contributing member of society and, as such, is deserving of and beneficial to the community. Such integration and participation underscores one's role as a vital part of the community, the community dynamic being inextricable from the human experience. Community service and volunteerism is valued.
- 6** Partnership between individuals, staff and family members/natural supports for shared decision making with a foundation of trust - A person in recovery, as with any member of a society, finds strength and support through partnerships. Compassion-based alliances with a focus on recovery optimization bolster self-confidence, expand understanding in all participants and lead to the creation of optimum protocols and outcomes.
- 7** Persons in recovery define their own success - A person in recovery – by their own declaration – discovers success, in part, by quality of life outcomes, which may include an improved sense of well-being, advanced integration into the community, and greater self-determination. Persons in recovery are the experts on themselves, defining their own goals and desired outcomes.
- 8** Strengths-based, flexible, responsive services reflective of an individual's cultural preferences - A person in recovery can expect and deserves flexible, timely and responsive services that are accessible, available, reliable, accountable and sensitive to cultural values and mores. A person in recovery is the source of their own strength and resiliency. Those who serve as supports and facilitators identify, explore and serve to optimize demonstrated strengths in the individual as tools for generating greater autonomy and effectiveness in life.
- 9** Hope is the foundation for the journey towards recovery - A person in recovery has the capacity for hope and thrives best in associations that foster hope. Through hope, a future of possibility enriches the life experience and creates the environment for uncommon and unexpected positive outcomes to be made real. A person in recovery is held as boundless in potential and possibility.

## Multi-Specialty Interdisciplinary Clinics

Multispecialty Interdisciplinary Clinics (MSICs) are clinics where members can see specialists all at one location and sometimes at the same appointment.

There are currently four MSICs in Arizona. They are located in Flagstaff, Phoenix, Tucson, and Yuma. At the MSIC, you and your family can see all of your medical specialists, benefit from community involvement, and get support services in one location.

If AHCCCS determines that your child is eligible for the CRS program, your child will be enrolled in a plan with a CRS provider.

Once your child is a CRS Member, your child will get an Identification (ID) card. The ID card has your child's name, CRS ID number, and other important information.

**The type of CRS medical provider who will treat your child's condition will depend on your child's special healthcare need. Your child's CRS medical provider may be one of the following:**

They can refer you to specialists to learn if your child is on track with talking, moving, using hands and fingers, seeing, and hearing. If your child is behind in one or more of these areas, there are services available to help. The doctor may refer you to the Arizona Early Intervention Program (AzEIP) if your child is birth to 3 years of age and has a delay. ## Developmental Screening Tools

Developmental screening tools used by PCPs providing care for children include:

- For members who are 9, 18, and 30 months of age, the Parent's Evaluation of Developmental Status (PEDS) tool and the Ages and Stages Questionnaire (ASQ).
- For members who are 18 and 24 months of age, the Modified Checklist for Autism in Toddlers Revised (MCHAT-R), to screen for Autism.

## Special Assistance

Special Assistance is a unique clinical designation that provides support to members with an SMI. Qualifying members must have an inability to communicate and/or participate during treatment planning and

have a qualifying mental and/or physical condition. When a health home clinical team or other qualified assessor determines that a member needs Special Assistance, the team will notify the Office of Human Rights. The Office of Human Rights will then send someone to work on behalf of the member during the member's treatment.

Arizona Complete Health-Complete Care Plan works with the AHCCCS Office of Human Rights to find members who need Special Assistance.

You can reach the Individual and Family Affairs team by calling Member Services at **1-888-788-4408**, TTY/TDD: **711** and asking to speak to someone from the Individual & Family Affairs Team.

You can visit the Office of Human Rights page at: <https://www.azahcccs.gov/AHCCCS/HealthcareAdvocacy/ohr.html> or call: **1-800-421-2124** or **1-877-524-6882**.

## Member Advocacy Council

# Approval and Denial Process

Some medical and behavioral health services may need Prior Authorization. Prior Authorization means your doctor has asked permission for you to get a special service or referral. We must approve these requests before the delivery of services. For example, non-emergency hospital admissions or others such as:

- Behavioral health inpatient facility;
- Behavioral health residential facility;
- Home Care Training to Home Care Clients (HCTC);
- Psychological and neuropsychological testing;
- Electroconvulsive Therapy (ECT);
- Non-emergency out of network services / treatments;
- Some medications — check the list of approved medications (formulary);
- MRI, MRA, PET scans;
- Special lab work or genetics;
- Surgeries (pre-scheduled);
- Dialysis;
- Some outpatient procedures and surgeries;
- Transplants; and
- Bio pharmacy (Buy and Bill).

If they do, your provider will arrange for authorization for these services. We must review these authorization requests before you can get the service.

**If you or your provider would like a referral to a service that is not a covered benefit, please call Member Services at 1-888-788-4408, TTY/TDD: 711 so we can discuss other options available to you.**

**Prior Authorization is approved based on a review of medical need.**

Your provider will let you know when they got authorization. You can also call Member Services to find out the status of the request. We will let you know by mail if authorization is denied. In the letter, you will have instructions on how to file an appeal. The letter will describe the reason for the denial. If you have a question about the denial and need help, please call Member Services at **1-888-788-4408**, TTY/TDD: **711**. Please see the section titled “*Complaints: What Should I Do if I Am Unhappy?*” in this handbook for more information about filing an appeal about a denied authorization.

**The criteria that decisions are based on are available upon request.**

## In-Network Referrals and Freedom of Choice of Providers

Arizona Complete Health-Complete Care Plan offers you the freedom of choice in selecting providers in our network. You may change your PCP or other provider at any time, and you may choose a different PCP or provider for each family member that is in our network. It is important that you use providers that are AHCCCS registered and part of the Arizona Complete Health-Complete Care Plan network or you may have to pay for services. You can search through our network of high-quality doctors, hospitals, and other healthcare providers on our website at <https://www.azcompletehealth.com/find-a-doctor.html> or by calling Member Services at **1-888-788-4408**, TTY/TDD: **711**.

## Copayments For Non-Title XIX/XXI Members

Non-Title XIX/XXI persons with a Serious Mental Illness (SMI) may have to pay copayments for behavioral health services. The copayment amount is \$3. Prior to your appointment for services, Arizona Complete Health-Complete Care Plan or your provider will discuss with you any payments you will have to pay.

If you have Medicare or private insurance, you will pay the \$3 copayment for services covered by Arizona Complete Health-Complete Care Plan, or your insurance copayment (if it is less than \$3) for those services. In other words, you will not have to pay a higher payment for Arizona Complete Health-Complete Care Plan covered services just because you have other insurance. However, if you are getting services through your insurance for services or medications that Arizona Complete Health-Complete Care Plan does not cover, you will have to pay the copay or other fees from your insurance (see the Available Services Matrix starting on page 27).

**You may have to pay for non-covered services. Examples of non-covered services may include:**

- A service that your provider did not set up or approve;
- A service that is not listed on the Available Services Matrix on page 35; or
- A service that you get from a provider outside of the provider network without a referral.
- Members are exempt from Medicaid copayments.

## Paying For Covered Services

Only in very limited circumstances should you be asked to pay for covered services. Doctors, hospitals, and pharmacies can verify your coverage through AHCCCS or by calling Arizona Complete Health-Complete Care Plan Member Service. If you have been asked to pay for a covered service or if you get a bill for covered services, please call Member Services at **1-888-788-4408**, TTY/TDD: **711**.

# Paying For Non-Covered Services

We will only cover care approved by our plan, unless it is an emergency service. If you get a service or prescription that is not covered by our plan, Arizona Complete Health-Complete Care Plan will not pay for the service or prescription.

# Coordination of Benefits (COB)

AHCCCS is the payer of last resort. This means AHCCCS shall be used as a source of payment for covered services only after all other sources of payment have been exhausted.

If you are a member with “other insurance” or are “dual eligible” (which means that you also have Medicare coverage), please take a moment to call Member Services at **1-888-788-4408**, TTY/TDD: **711** to let us know. When you call us, we will make sure we have the other insurance listed in our system.

You may also call the AHCCCS eligibility office to let them know. AHCCCS will then pass the information on to us. Remember, this also includes insurance coverage through divorce or if your child has insurance that is paid by your former spouse. Sometimes, members with other types of insurance such as Tricare or other commercial plans are approved for AHCCCS. We are responsible for making any copayment, coinsurance, or deductibles, even if the services happen outside of our network.

If a third-party insurer (other than Medicare) has any copayment, coinsurance, or deductible, we are responsible for paying the lesser of the difference between:

- The primary insurance paid amount and the primary insurance rate (i.e., the member’s copayment under the primary insurance).

### **OR**

- The primary insurance paid amount and the AHCCCS fee-for-service rate, even if the services happen outside of the network.

We are not responsible for paying coinsurance and deductibles that are more than what we would have paid for the entire service per our contract with the provider performing the service or the AHCCCS equivalent.

Arizona Complete Health-Complete Care Plan takes care to find out who may have to legally pay for all or part of covered services. This is called establishing liability.

The two methods used for coordination of benefits are cost avoidance and post-payment recovery.

Cost avoidance means that we avoid paying the cost of services on a claim if we have established that there is a liable party, such as other insurance that should be covering the cost.

Post-payment recovery means that if we find out that there was a liable party after we have paid a claim, we will recover the cost of that claim.

AHCCCS is the payer of last resort unless specifically prohibited by applicable state or federal law. This means AHCCCS shall be used as a source of payment for covered services only after all other sources of payment have been exhausted. Arizona Complete Health-Complete Care Plan will take care to identify potentially legally liable third-party sources.

## Special Information for our Members Who Have Medicare Coverage

If you are a “dual eligible” member, it often means that you have additional benefits that may not be covered under AHCCCS. When we know about your other insurance, it helps us coordinate the care you get with the other plan.

If you have Medicare coverage and you see a doctor that is not on our plan, the charges may not be covered. If you choose to do that without our approval, we may not pay for those services because they were done by a doctor that is not on our plan. It is important that you work with your PCP to be referred to the right doctors. (This does not include emergency services.) We will not cover payments for out-of-network services without Prior Authorization.

Dual eligible members have a choice of all providers in the network and are not restricted to those that accept Medicare.

**Why should you call Member Services and let us know about the different coverage that you have?** Because it will help you get the maximum benefits from both insurance plans!

### **Important Information for AHCCCS Members with Medicare Part D Coverage (Dual Eligible Members)**

Medicaid does not cover medications that are eligible for coverage under Medicare Part D plans. Medicaid does not pay for Medicare copayments, deductibles or cost sharing for Medicare Part D medications except for persons who have been designated to have an SMI designation.

AHCCCS covers medications that are excluded from coverage under Medicare Part D when those covered medications are deemed medically necessary. An excluded drug is a medication that is not eligible for coverage under Medicare Part D.

AHCCCS may cover some medications that are Over-the-Counter (OTC), refer to the Arizona Complete Health-Complete Care Plan OTC Drug List for a list of products available on our website at <https://www.azcompletehealth.com/members/medicaid/benefits-services/pharmacy.html> or call Member Services at **1-888-788-4408**, TTY/TDD: **711** to request a printed copy.

For members with Serious Mental Illness (SMI) designation, AHCCCS also covers copayments for drugs used for a behavioral health diagnosis when medically necessary and cost effective.

### **Timeframes for Service Authorization and Medication**

Service authorization decisions have to be completed in the timeframes shown below and do not follow the same timeframes used for other types of requests.

### Service Authorization Decision Timeframe for Medicines

- No later than 24 hours from receiving it.
- Final decision no later than seven working days from the first day of the request.

When the prior authorization request for a medicine does not have enough information to make a decision, Arizona Complete Health-Complete Care Plan will ask for more information from the prescriber no later than 24 hours from the time it is received. A final decision and a Notice of Adverse Benefit Determination will be given no later than seven working days from the first date of the request.

**Standard authorization decision timeframe for service authorization requests that do not refer to medicines:** as soon as the member's condition requires, but no later than 14 calendar days from the day the request is received.

**Standard service authorization requests (requests that do not involve medicines):** Arizona Complete Health-Complete Care Plan may give 14 more days, for a total of up to 28 calendar days from the day the request was made.

**Expedited service authorization decision timeframe for service authorization requests that do not refer to medicines:** as soon as the member's condition requires but no later than 72 hours from receiving it.

For an expedited service authorization request not involving medicines, Arizona Complete Health-Complete Care Plan may give 14 more days, for a total of up to 17 calendar days from the day the request was made.

- The reason why your appeal was denied and the legal basis for the decision to deny your appeal; and
- That you may have to pay for the services you get during the State Fair Hearing process if your appeal is denied at the State Fair Hearing.

### Appeals For Persons With a Serious Mental Illness (SMI) (continued)

If there is no resolution of the appeal during this informal conference, and if the appeal does not relate to your eligibility for behavioral health services, the next step is a second informal conference with AHCCCS. This second informal conference must take place within 15 days of filing the appeal. If the appeal needs to be expedited, the second informal conference must take place within two working days of filing the appeal. You have the right to skip this second informal conference.

If there is no resolution of the appeal during the second informal conference, or if you asked that the second informal conference be skipped, you will be given information that will tell you how to ask for an Administrative Hearing.

### ***Will my Services Continue During the Appeal Process?***

*If you file an appeal, you will keep getting any behavioral health services that you were already getting unless a qualified clinician decides that reducing or terminating services is best for you, or you agree in writing to reducing or terminating services. Arizona Complete Health-Complete Care Plan will not make you to pay for the services you got during the appeal process, no matter the outcome of the appeal.*

## Changing Your Physical Health Services Plan for Members with SMI

Members who are determined to have a Serious Mental Illness (SMI) and who are enrolled in one plan for both physical health and behavioral health services may request a different plan for their physical health services. This is called an opt-out request. An opt-out will only be approved if, the member or their designee is able to show harm or unfair treatment in:

- 1 Getting healthcare,
- 2 Receiving quality healthcare,
- 3 Protecting member privacy and rights, or
- 4 Choosing a provider.

If you would like to ask for an opt-out, contact Member Services at **1-888-788-4408**, TTY/TDD: **711**.

Before you are moved to another AHCCCS healthcare plan, Arizona Complete Health-Complete Care Plan will try to resolve your concerns. If Arizona Complete Health-Complete Care Plan is not able to resolve your concerns, you or your representative may apply for a change in your health plan by calling Member Services at **1-888-788-4408**, TTY/TDD: **711**.

If you want to change your plan because you have been discriminated against, unfairly treated, or you believe that there is a possibility that discrimination or unfair treatment could occur, you will be asked to show proof. Simply being enrolled in an integrated health plan does not prove actual or potential discrimination or unfair treatment.

### Arizona Complete Health-Complete Care Plan’s review process will follow these steps:

- Arizona Complete Health-Complete Care Plan will confirm that you are enrolled in the integrated plan;
- Arizona Complete Health-Complete Care Plan Member Services will record your claims of actual harm, possible discrimination, or unfair treatment caused by enrollment in the integrated health plan; and

- Arizona Complete Health-Complete Care Plan Member Services will complete the “Transfer of a SMI member enrolled in an RBHA to an AHCCCS Acute Care Contractor” form and include any evidence that you or your representative provide.

You will get the approval or denial in writing within 10 days of your request. If your request is approved, Arizona Complete Health-Complete Care Plan will work with your new AHCCCS healthcare plan to ensure there are no interruptions in your care. If your request is denied, you will get the reasons for the denial and you will be informed of your right to make an appeal.

## Special Assistance for Members with an SMI Designation

Special Assistance is a unique clinical designation providing support to members with an SMI determination. Qualifying members must have an inability to communicate and/or participate during treatment planning and have a qualifying mental and/or physical condition. When a health home clinical team or other qualified assessor determines a member meets Special Assistance criteria, they notify the Office of Human Rights. The Office of Human Rights will assign an individual to meet Special Assistance needs who advocates on behalf of the member during treatment planning.

Arizona Complete Health-Complete Care Plan works in collaboration with the AHCCCS Office of Human Rights to ensure members meeting Special Assistance criteria are appropriately identified.

You can reach the Individual and Family Affairs team by calling Member Services at **1-888-788-4408**, TTY/TDD: **711** and asking to speak to someone from the Individual & Family Affairs Team.
